Major

Your experience here will be both enriching and challenging. Our History curriculum offers broad experience in U.S., European, World history, as well as opportunities to study the history of ethnic and social groups and specialized courses such as Environmental history. The study of history sharpens a student's own sense of values, provides a context for present decision making, and cultivates a more compassionate attitude toward peoples whose way of life may be different from yours. Theory and techniques are also important elements to the degree. History is a non-teaching degree designed to place the history student in a variety of careers such as law, government service, archivist, consultant, foreign services officer, intelligence agent, researcher, and more. This major also prepares students for advanced and specialized graduate study. We will work with you to plan a course of study that meets your needs and interests.

As a History major, you will learn many skills employers desire: analyzing data, logic, critical thinking, researching, and precise writing. To assist you, we encourage you to seek an internship to utilize the skills acquired in the classroom. The Barnes County Historical Museum gives students the opportunities for practical, hands-on experience, archives for research, and community involvement. Both behavioral science and business internships are available for students who lack previous employment experience. Our program will offer you a variety of non-traditional learning opportunities.

GET INVOLVED IN YOUR MAJOR

VCSU has an active Phi Alpha Theta/History Club, allowing students to develop leadership skills and promote history across campus. Students have opportunities to present their research at the Dakota History Conference and the Northern Great Plains History Conference, in regional, professional history settings. The Social Science Department also periodically organizes overseas travel opportunities for VCSU students.

““There are... opportunities for undergraduate research and professional conferences. My research brought me elbow-deep in museum archives and to afternoon coffee with the sons of a Manhattan Project veteran. I was able to present my research at both the Northern Great Plains History Conference and the Dakota History Conference, where my research earned me the Endowed Western Studies Student Award, conference recognition amongst professionals in the field, and a cash prize for my work. My professors were there to assist me with every step, and

challenged me to create my best work.” —Stephanie McCann '18, Veronia, N.D.

“My internship at the Barnes County Museum was a valuable experience. I learned about exhibits, collections, and the daily functions of a museum.” —Timothy Eppen '09, Edgeley, N.D.
